

Bridges of Hope

A presentation to educate clergy and congregations about mental illness

NATIONAL ALLIANCE ON MENTAL ILLNESS (NAMI) CHICAGO

namichicago.org

Have you found yourself at a loss as to how to respond to congregational members whose behavior, moods, or thoughts seem to be a cause for concern? Or to family members who are struggling with a loved one's mental illness.

NAMI Chicago, the Chicago affiliate of the National Alliance on Mental Illness, provides a FREE presentation to congregations of all faiths, focused on recognizing and responding to the mental health needs of the congregation.

The presentation is called ***Bridges of Hope*** and it covers:

- The Red Flags or warning signs that someone needs help
- What to do when someone exhibits the warning signs of a mental illness
- What congregations can do
- The role of NAMI Chicago in connecting you to resources for individuals and families

If you're interested in scheduling the presentation for a group of people in your congregation, please contact:
